DINING & ENTERTAINMENT

ZEM

Inspired by the earth (zem), which provides the nourishment for flora and fauna, celebrated through the art of cooking, ZEM is the connection between nature and the creativity of our chefs. Local ingredients coming from Moravia and Bohemia are crafted into modern versions of Czech comfort food through the art of bistronomy, using high-quality ingredients and natural flavors. Our menu also honors the influences of authentic Nikkei, Japanese meat dishes from the charcoal grill, and handmade dumplings from our steamers. We encourage you to taste delectable authentic reimaged dishes from over here (Moravia and Bohemia) and from over there, Japanese Nikkei food.

MEZ

Just as the field border (mez) is where a farmer rests, refreshes, and meets with others after a hard day at work, the MEZ bar is where locals and travelers engage together and enjoy the exhilarating atmosphere. Our mixologists reconnect with nature to surprise you with perfectly balanced cocktails, that are infused with the ancient power and wisdom of Bohemian mythology and spiced with a true South American vibe.

SOCIAL SPACES

ANDAZ STUDIOS

Three flexible event spaces that can accommodate anything from a small boardroom meeting or private dinner through to a conference for up to 72 guests, a cocktail reception for 100, or a product launch. The Andaz Studios are combinable up to a total of 150 sq m.

COLLEGIUM 1 & 2

Once used by Prague's Sugar Barons as Collegium, these rooms are truly unique and stunning venues in every sense. Flooded with light through grand windows on both sides, magnificent high ornate ceilings, and oak parquet flooring, these rooms are sure to spark creativity and inspiration.
