The recipes are crafted to infuse authentic taste in the food with focus on home style, comfort dishes. Offering personalized service, guests are encouraged to interact with servers and the chefs directly about what they like, rather than order from a menu. The Dining Room is just like home where live counters are set up during breakfast and dinner buffet periods.

The Flying Elephant - an architectural masterpiece, is now bolder, innovative and unscripted. Its three-level layout offers guests a multi-sensory dining experience that is unmatched in the city.
