Location

Although Leverkusen is geographically a little bit like the little brother of the Rhine metropolis of Cologne, Leverkusen also has more to offer than just chemistry: The Museum Schloss Morsbroich, the Japanese Garden, various small art stages, a lively pub scene and, of course, the stadium of the first league player Bayer 04, which attracts and inspires visitors from all over the world. And if the sights of Leverkusen aren't enough, then the big city of Cologne is just around the corner.
